

YOUR EXPERTS IN

- Heavy Lift Transport
- Transport Design
- Warranty Survey
- Offshore Tenders

Experience in Heavy Lift

Working with Leenaars means that you have 30 years of heavy lift experience at your service. Our cooperation with Centrans means that we can support you every step of the way. The experienced superintendents of Leenaars will closely manage the execution of your valuable project.

Optimal Teamwork with Centrans

Leenaars has been contracted by Centrans to assist with their heavy lift vessels Sky Tethys and Sky Oceanus. Our familiarity with these vessels result in better transport solutions. Our office in the Netherlands and Centrans' office in China means that you have contact points in both Europe and the Far East to facilitate communication.

Customisation

There are times that existing equipment need to be adapted to meet the needs of a challenging project. Leenaars has the insight and skills to engineer tailor made solutions for their clients, including modifying the dock ships to expand their capabilities.

Transport Aids

Leenaars can provide assistance and advice when standard seafastening solutions cannot be applied. We have experience in the application of various types of transport aids and designing seafasters.

Dedicated Project Managers

Each campaign is appointed a dedicated project manager responsible for:

- stowage plans
- loading/ discharging plans
- motions (safetrans)
- seafastening plans
- short trip scenarios
- monitoring motions and accelerations during transport

Container Cranes

Leenaars has an unprecedented track record in the engineering of new and second hand relocations.

Offshore Installation and Removal

Leenaars performs feed studies, workability analysis and can develop tender documentation for your offshore installation/removal projects.

Warranty Survey

Leenaars offers expertise of insurance to underwriters by the evaluation of marine and offshore operations. We can also supply specialists to act and report as expert witnesses.

Stowage Plan Sky Tethys / Sky Oceanis

Length o.a.	159.16 m	Draft submerged	12.00 m
Length b.p.	116.00 m	Summer draft	7.75 m
Breadth (moulded)	24.20 m	Deadweight	12,928 t
Depth to upper deck	15.00 m	Dock length	116.94 m
Depth to main deck	7.00 m	Dock width	20.20 m
